

Wild Tribe Outdoor Learning

GO FIND IT!

SPRING

YEAR GROUP: UPPER KS2

CURRICULUM LINKS: Science

Living things and their habitats: *They make observations of animals and plants and explain why some things occur, and talk about changes*

ACTIVITY:

Construct a set of GO FIND IT! Flora ID sticks

RESOURCES

*Stick lengths of 20cm
Sheath knives*

HOW TO

Whittle Use a sheath knife to whittle one half of one side of a stick

Scribe On the whittled section scribe the name of a native Flora species; *Campion, Nettle, Lessercelandine etc.*

Go find it! Hunt for each stick Flora and mallet the stick in place of the found Flora

Classify it! Make observations of similarities and differences of plant species within the same and different family group. Group and classify Flora based on made observations and using classification keys.
